ABOUT US

WAVE is a technical support company that provides comprehensive services in the organization, management and technical support of conferences, corporate events and webcasts, both in Greece and abroad.

WAVE was established in 2019 by **Andreas Dralios, Efthimios Tikellis** and **Charalampos Liontis**, experienced co-partners, specializing in event organization, audio visual installations and video production.

Our team will go to extreme lengths to understand your event objectives and will offer you the best possible solution to exceed your expectations, leaving you to focus on the overall goal.
For us, the key to creating a successful event is in the planning.
